Stock Sizes	
Panel Width in Inches	Panel Length in Inches
24, 36	240, 288

Other bearing bar sizes and spacings are available.
All grating can be cut to your specifications.

When ordering GRATING, specify:

- Type of GRATING
- Size of BEARING BARS (Depth & Width)
- Span (direction of bearing bars)
- Dimensions of area
- Unpainted, Painted or Galvanized, Smooth or Serrated
- Special shapes can be furnished with, or without, edge banding.

When ordering STAIR TREADS, also specify:

- Width & Length
- Type of Nosing (Checker Plate or Cast Iron Abrasive)
- Punching in side plates or standardized dimensions may be altered to suit special conditions.

EXPANDED METAL

Expanded Metal may be used for many industrial purposes such as open partitions, window guards, machine guards, and other manufacturing and maintenance uses.

It is more rigid than an equal weight of solid steel plate or wire mesh. In fabricating, it may be cut to any desired shape without loss of its original strength.
